ARIZONA CRIMINAL JUSTICE COMMISSION

Chairperson
SEAN DUGGAN, Chief
Chandler Police Department

Vice-Chairperson
SHEILA POLK
Yavapai County Attorney

JOE ARPAIO
Maricopa County Sheriff

MARK BRNOVICH
Attorney General

JOE R. BRUGMAN, Chief
Safford Police Department

DAVID K. BYERS, Director
Administrative Office of the Courts

KELLY "KC" CLARK
Navajo County Sheriff

DAVE COLE
Former Judge

CHRIS GIBBS, Mayor
City of Safford

DREW JOHN
Graham County Supervisor

ELLEN KIRSCHBAUM, Chairperson
Board of Executive Clemency

BARBARA LAWALL
Pima County Attorney

FRANK MILSTEAD, Director
Department of Public Safety

BILL MONTGOMERY
Maricopa County Attorney

CHRIS NANOS
Pima County Sheriff

CHARLES RYAN, Director
Department of Corrections

DAVID SANDERS
Pima County Chief Probation Officer

DANIEL SHARP, Chief
Oro Valley Police Department

HESTON SILBERT
Law Enforcement Leader

ANDREW T. LEFEVRE
Executive Director

Acknowledgments

The Arizona Criminal Justice Commission (ACJC) would like to thank Arizona State University's Morrison Institute for Public Policy and NORC at the University of Chicago for their professionalism and contributions to the success of the 2016 Arizona Youth Survey. Additionally, ACJC would like to thank our colleagues for their guidance and assistance throughout the administration process. ACJC would also like to thank community leaders who provided their expertise for the betterment of our survey, including:

R. Bradley Snyder, New Amsterdam Consulting, Inc.
Shana Malone, Arizona Health Care Cost Containment System
Eric Hedberg, NORC at the University of Chicago
Wendy Wolfersteig, SIRC at Arizona State University
Timothy Leffel, NORC at the University of Chicago
Andrea Whitsett, Morrison Institute for Public Policy at ASU
Sarah Lindstrom Johnson, The Sanford School at Arizona State University
Dawn DeLay, Arizona State University

Furthermore, the success of the 2016 Arizona Youth Survey could not have been possible without the support and participation of school superintendents, principals, prevention coordinators, and teachers throughout the state. Thank you for contributing your time and efforts toward the completion of this report.

Finally, we extend our thanks to the students who responded to the survey. Their thoughtful participation resulted in a wealth of information that can be used to improve the circumstances in which all youth live and learn.

Data from the Arizona Youth Survey will be made available on the ACJC Community Data Project (CDP) site after reports have been distributed to participating schools and government agencies. The CDP site was made possible with funding from:

Bureau of Justice Statistics
Office of Justice Programs
U.S. Department of Justice
Governor's Office of Youth Faith and Family
Arizona Department of Gaming

Section 1: Executive Summary

The Arizona Youth Survey (AYS) was administered to a statewide sample of 8th, 10th, and 12th grade students during the spring of 2016 under direction of the Arizona Criminal Justice Commission's Statistical Analysis Center to comply with Arizona Revised Statute §41-2416. Based on the nationally recognized Risk and Protective Factor model and the Communities That Care survey (Hawkins et al., 1992), the AYS assesses the prevalence and frequency of youth substance use, gang involvement, and other risky behaviors in Arizona, and helps stakeholders to better understand the risk and protective factors that are correlated with these behaviors.

At the local school and district level, administrators may use the data included in this report to guide their decisions on programming and services. Planners at the regional, county, and state levels can use these data as comparisons to data they may be collecting at the program level in order to better understand needs and to help allocate resources to issues of greatest concern.

At all levels, stakeholders involved in assessment, planning, implementation, and evaluation efforts around substance use and other problem behaviors can use the AYS data in a variety of ways:

- examine pertinent community issues,
- design and implement a new project and/or policy,
- look to obtain funding for a new project and/or policy, or
- modify or redesign a project and/or policy.

Survey Findings: Highlights

These findings discuss some of the important attitudes and behaviors of Arizona youth who responded to the 2016 survey.

Problem Behaviors

Alcohol Use in the Past 30 Days has continued to decline in Arizona; in 2016, 22.4 percent of youth reported drinking alcohol in the past 30 days, a decline from 24.1 percent in 2014, and from 28.1 percent in 2012.

Marijuana Use in the Past 30 Days was reported at 14.2 percent, a very slight increase from the 13.6 percent who reported using marijuana in 2014, but similar to the rate in 2012 of 14.3 percent.

Cigarette Smoking in the Past 30 Days among youth has continued to remain at a rate of less than one in ten who smokes regularly, with the 9.2 percent of youth who reported this in 2016 staying similar to the 9.4 percent in 2014, down from 12.9 percent in 2012.

Prescription Pain Relievers Use in the Past 30 Days was reported at 6.4 percent for 2016; this is an increase since the 4.7 percent reported in 2014, but is similar to the 6.2 percent reported in 2012.

Bullying on School Property: When asked how often during the past 12 months they had seen bullying on school property, 38.9 percent of youth said they have seen bullying on school property at least once, and about 16 percent had seen bullying four or more times.

Risk Factors

Attitudes Favorable toward Drug Use: On average, students had unfavorable views towards drug use. On a scale of 1 (very wrong) to 4 (not wrong), the mean was 1.55, and less than 5 percent of youth scored a 3 or higher, showing that youth believed it was wrong for someone their age to use alcohol, cigarettes, marijuana, or LSD/cocaine/amphetamines/illegal drugs.

Perceived Risk of Harm of Drug Use: Perceived risks of drug use showed a mean score that was towards the middle of the 1-4 scale at 2.31 suggesting that youth only perceived some moderate to slight risk for people using alcohol, cigarettes, marijuana, or prescription drugs without a doctor telling the youth to take them.

Protective Factors

Interaction with Prosocial Peers: On average, youth responded that they each had an average of two best friends who had participated in positive activities in the past year. Participating in clubs, committing to staying drug free, trying to do well in and liking school are all positive attitudes and behaviors for youth.

Consequences

Rode in a Car with Someone Who had been Drinking Alcohol: The vast majority of youth practiced the safe habit of not riding in a car with someone who had been drinking alcohol, with only about 20 percent of youth reporting having ridden in a car with someone who had been drinking in the past 30 days.

ACEs (Adverse Childhood Experiences)

Adult Actions in the Home: Unfortunately, more than half of youth reported that in their lifetime, an adult swore at, insulted, or put them down. Such early childhood experiences are linked to negative health outcomes later in life.

School Safety

Feel Safe at School: About 80 percent of youth agree or strongly agree that they feel safe at school. School safety can impact certain youth behaviors such as school attendance and bullying.

This report provides a comprehensive overview of the aforementioned topics, complete with definitions and charts, in turn providing an in-depth understanding of the youth landscape in Arizona. These AYS findings, along with data from other disciplines (e.g. public health and education research), can support the design and implementation of evidence-based programs intended to meet needs specific to the populations most at risk or most likely to be impacted by substance abuse and other problem behaviors.

Section 2: Introduction

2.1 Background

2016 Arizona Youth Survey Report

Every two years, the Arizona Criminal Justice Commission's Statistical Analysis Center conducts the Arizona Youth Survey (AYS) to comply with Arizona Revised Statute §41-2416. This survey was designed to assess the prevalence and frequency of youth substance use, gang involvement and other risky behaviors in Arizona, and to better understand the risk and protective factors that are correlated with these behaviors. The AYS is based on the nationally recognized Risk and Protective Factor model included in the Communities That Care (CTC) survey. This framework was developed in 1989 by J. David Hawkins, Ph.D., Richard F. Catalano, Ph.D., and a team of researchers at the University of Washington (Hawkins et al., 1992).

The Risk and Protective Factor (RPF) model is a prevention model that is utilized to identify methods of reducing concerning behaviors in youth by addressing the social factors that may increase or decrease the risk of a behavior developing. This model categorizes these social factors in four domains: individual/peer, family, school, and community. Each domain contains a set of risk and protective factors that youth may experience. Risk factors include concepts such as youth perceiving no risk in using drugs, having high family conflict, having low commitment to their school, or perceiving that drugs are easily obtainable. Protective factors include concepts such as youth interacting with prosocial peers, having a strong attachment to their family, having opportunities for prosocial involvement, or receiving rewards for prosocial involvement.

During each administration year, the Arizona Youth Survey is completed by 8th, 10th, and 12th grade students throughout all 15 counties in Arizona. Any school that serves these grade levels is eligible to participate regardless of school type (e.g. traditional public, private, or charter schools). The 2016 survey was administered between February and May 2016, and resulted in the participation of 57,170 students from 249 schools across Arizona.

This report summarizes the findings obtained from the 2016 AYS for Cochise County, which includes 437 8th grade students, 733 10th grade students, and 577 12th grade students. The sample size per chart can be smaller because some youth did not answer all the questions. Due to significant changes to the survey instruments over the years, the Arizona Criminal Justice Commission (ACJC) cautions readers against comparing these data to pre-2002 survey results.

The Community Data Project

The Community Data Project (CDP), online at http://azcjc.gov/cdp_site/default.aspx, is a multi-agency effort to create a central repository for Arizona's substance abuse and criminal justice data (e.g. AYS results, crime rates, and corrections). Through a user-friendly website, the public has access to a one-stop portal where they can select the type of data they need by specific demographic characteristics and geographic level of interest. The CDP can be used to obtain data for grant writing purposes, prevention efforts, and to inform strategic planning and programmatic changes. Various output options are available, including data tables, graphs, and maps, to cover a variety of reporting and visualization needs.

2.2 County Sample

All schools in Arizona are eligible to participate in the survey, and recruitment efforts were successful in obtaining participation by schools in all 15 counties. Careful planning and uniform administration of the survey have resulted in data that are valid and representative of students in the 8th, 10th, and 12th grades across the state.

In this report, the results for Cochise County are presented. Table 1 presents the summary demographic statistics for the 2016 county sample, and compares them with the latest data from the National Center for Education Statistics' (NCES) Common Core of Data (2015). The first two columns in this table allow the reader to judge the representativeness of the obtained sample. If there are large differences between the sample and NCES data, the generalizability of the results should be re-considered (Maxfield and Babbie, 2015). The first column is the AYS county data, the second is the NCES data for this county, and the third column is the state-wide NCES data.

To better understand the diversity of Arizona's youth population, respondents were asked separate questions about their ethnicity (Hispanic vs. Non-Hispanic) and their race (American Indian, Asian, Pacific Islander, Black, and White — which includes Hispanic and Non-Hispanic). This method for obtaining ethnicity and race information provides more comprehensive data on youth cultural and racial self-identification, and on Arizona's diverse youth population. Note also that students were able to check as many race categories as they felt applied to them, so percentages in the race categories may not add up to 100%. To simplify this issue, percentages are reported for a composite race/ethnicity variable created based on answers to the separate race and ethnicity questions.

Table 1: Demographic characteristics of the Cochise County and state samples.

		County Sample	County NCES (2014-2015)	State NCES (2014-2015)
Gender	Male	51%	52%	51%
	Female	48%	48%	49%
Race/Ethnicity	American Indian	1%	1%	5%
	Asian/Pacific Islander	2%	2%	3%
	Black	4%	4%	5%
	Hispanic	56%	53%	45%
	Multi-racial	8%	3%	2
	White	29%	37%	40%

Whenever data are obtained from a sample of students instead of the entire population, it is important to recognize the strengths and weaknesses of the data. One easy way to investigate the quality of the sample is to look at the basic demographic characteristics of the students who participated in the survey and compare them to what is known about the entire population of students. This will give the user of these data a basic understanding of the degree to which the sample data can be generalized to the entire population. Differences of greater than 5 percentage points may indicate that the results in this report may be over- or underestimating the prevalence of various issues.

The data included in this report describe the level of risk and protective factors, substance use, antisocial behavior, and delinquency of those youth who participated in the survey. These can be used to inform

the development of school and community-based prevention and intervention activities that may benefit both the youth who participated in the survey and those who did not.

2.3 About the Survey Data

The data reported here were collected using two modes. First, a self-administered questionnaire using Scantron technology was utilized in schools which did not have extensive access to computers for their students. The instrument used for these paper-and-pencil administrations is available in Appendix B. A second mode, a self-administered online survey, was also available for schools to use if they preferred to administer the survey online. This online tool presented the same questions as the paper-and-pencil Scantron survey, except that students could answer the questions on a computer while in their classroom. The data were compiled into the final analysis dataset using statistical software.

2.4 Structure of the Report

Structure of Sections 3–8

Sections 3–8 of this report have the same basic structure. Each subsection presents definitions, followed by bar- or line-graphs (“figures”), all relating to a particular topic area of the Arizona Youth Survey. The figures visually represent the responses to a selection of questionnaire items associated with the topic area. For example, Section 3.1: Substance Use and Frequency of Use begins with a Definitions portion, which lists definitions for the AYS categories *Substance Use in the Last 30 Days*, *Lifetime Substance Use*, *Frequent Use of Substances*, *Binge Use*, and *Poly-Substance Use*. Following these definitions is a Figures portion, which presents a series of figures summarizing survey results for the questionnaire items associated with the categories in the definitions portion.

While some subsections (topic areas) contain a larger number of specific definitions and figures than others, all subsections in Sections 3–8 have this same basic structure.

The Figures portions of each topic area contain separate figures for 8th, 10th, and 12th grade responses (with the exception of 2012-2016 line-graphs, in which the 8th, 10th, and 12th grade data appear side-by-side in the same graph). If a particular figure requires additional explanation or commentary, it is included above it in the main text of the Figures portion.

Structure of Appendix Section

Following the main text of the report are four appendices:

Appendix A: List of References

Appendix B: Scantron Questionnaire

Appendix C: Risk & Protective Factor Scale Definitions

Appendix D: Wording Changes in 2016 Questionnaire

The contents of the appendices are summarized at the beginning of the Appendices section. Additional information about each individual appendix is provided in the corresponding appendix subsection itself.

2.5 Interpreting the Figures

Every figure in this report compares the responses of Cochise County students to the average responses from the state-wide Arizona sample, for a selection of 2016 AYS questionnaire items.

Most of the figures are bar-graphs (or: “bar-charts,” “bar-plots,” etc.). With a few exceptions, such figures depict what percentage of youth in the sample agreed with a statement (e.g. “it is wrong to smoke marijuana”), reported having participated in some activity (e.g. have smoked marijuana in the last 30 days), or provided some specific answer to the relevant question (e.g. obtained marijuana from someone with a medical card). Each percentage-based figure will specify exactly how the percentages should be interpreted, via a main title above the plot window and label on the horizontal axis.

Some figures in the report display measurements other than percentages, such as initiation age in Section 5.2, or composite Risk and Protective (RPF) scores in Section 5.1 (see Appendix C for RPF scoring information). In figures that do not represent percentage-based data, the relevant units will be clearly indicated in the title and/or horizontal axis.

In some cases, the number of youth who responded to a question was less than 25. In these cases, the gray bar representing the school statistic is suppressed to protect the privacy of the survey respondents. The following sample figure, Figure 0, is typical of the charts appearing throughout the report (the actual numbers in the sample figure are not genuine — they are provided for illustrative purposes only). The %-labels are provided for each bar in each figure, and are rounded to one decimal place throughout. For county and district reports, the average responses for students in the county or district are compared to the state average, instead of an individual school.

The black error bars () that appear on each of the school-level bars represent the margin of error. Due to the nature of survey data, any given measurement is only an estimate of the true value. For example, Figure 0 shows that 9.7% of Example School students have used Substance A in the last 30 days. However, if the survey was re-administered to the same students repeatedly, it is unlikely that *exactly* 9.7% of them would report having used Substance A each and every time (again, see introductory section). Thus, the margins of error on Example School’s bars in Figure 0 indicate the range within which we can be confident that the “true” percentage lies. This is important primarily for comparison with the corresponding state-level percentages.

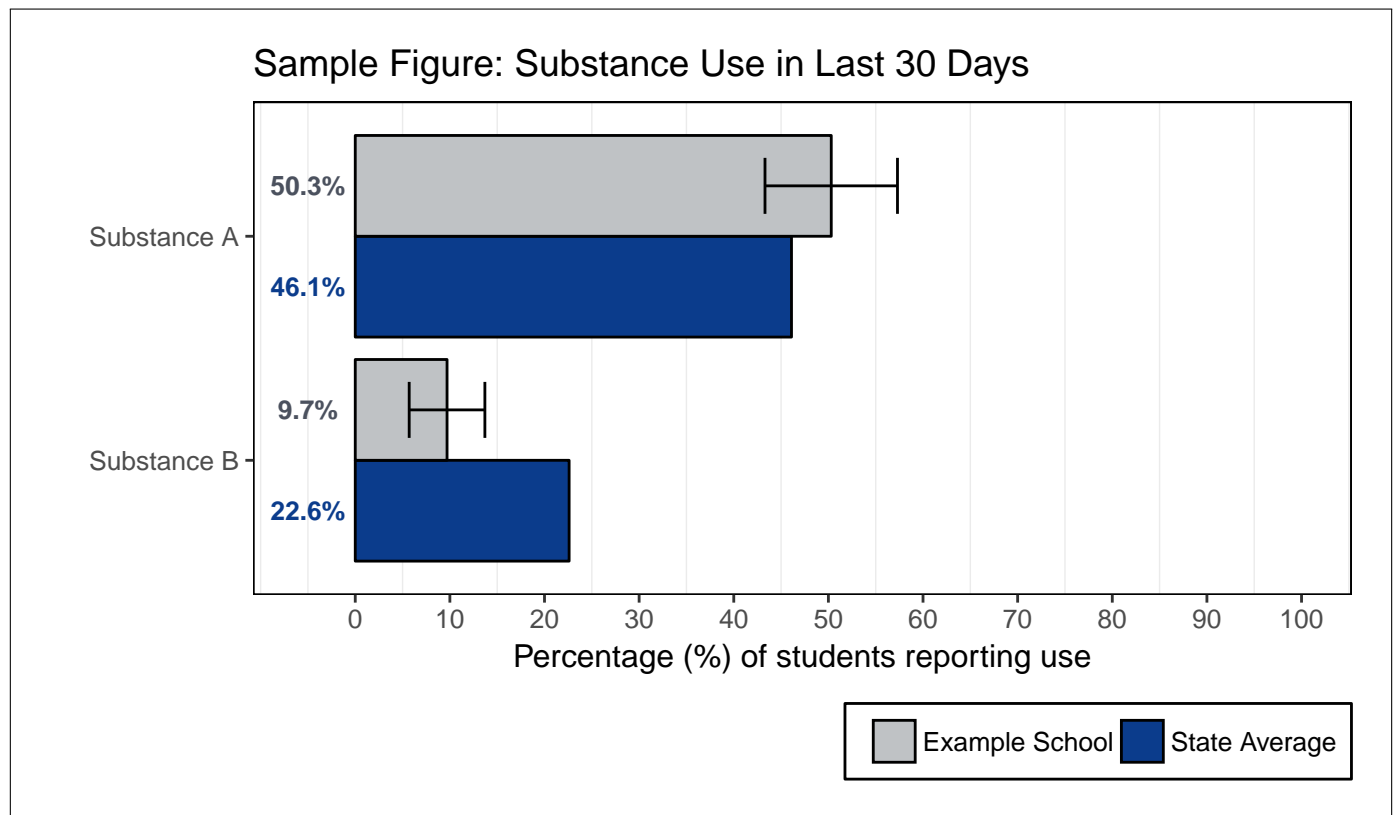

Figure 0: Sample Figure: Substance Use in Last 30 Days

When comparing school-level numbers with state-level numbers, it is important to note the position of the state-level bar as it relates to the position of the upper and lower margin of error on the corresponding school-level bar. If the state average bar falls within the range of the school's upper and lower margins of error, then we *cannot* safely conclude that there is a meaningful difference between students in the school and students in Arizona at large. For example we *cannot* conclude from Figure 0 that students at Example School are more likely to use Substance A than Arizona students are on average, even though Substance A use is at 50.3% within Example School but only 46.1% state-wide. This is because the state average bar falls within the school's margin of error (which ranges from about 43% to 57%, indicated by the length of). In other words, the "true" value of students at Example School who reported using Substance A lies somewhere between 43% and 57%. Because the statewide rate of 46.1% falls within this range, it is *not* plausible to conclude that there is a meaningful difference between Example School and the state average.

On the other hand, we can conclude from Figure 0 that it *is* plausible that there is a meaningful difference in use of Substance B between Example School and the state average. In particular, since the state average for 30-day use of Substance B (22.6%) is higher than the upper margin of error for Example School (about 14%), it is plausible that students at Example School are indeed less likely to use Substance B than Arizona students are on average. Put another way: since the state bar does not overlap with the school's error-bars, Figure 0 *does* provide evidence for a meaningful difference in use of Substance B.

Key points to remember about figures with this format:

- **Gray bars** represent the data for Cochise County
- **Blue bars** represent Arizona state-average data
- **Black error bars** () represent the margin of error for the sample estimate that the bar represents. This is a range that effectively represents the possible values of the bar length given the sampling error. The smaller the sample, the larger this range becomes. This range allows readers to judge the difference between the value of the reported statistics against the state averages. See also Section 2.5: Interpreting the Figures.
- If the state-average bar is higher than the upper margin of error on the county's bar, or lower than the lower margin of error on the county's bar, then it is plausible that the county's student body genuinely differs from the state of Arizona on that particular item (for the particular grade level represented in the figure).

Section 3: Problem Behaviors

3.1 Substance Use and Frequency of Use

Definitions

Youth were asked many questions on their use of alcohol, tobacco, and other drugs, and specifically on

- alcohol (beer, wine, or hard liquor);
- cigarettes;
- electronic cigarettes;
- marijuana;
- LSD or other hallucinogens;
- cocaine or crack;
- inhalants (sniffed glue or inhaled gases);
- methamphetamines (meth, crystal meth);
- heroin;
- Ecstasy (MDMA);
- steroids or anabolic steroids;
- prescription pain relievers (such as Vicodin, OxyContin, Percocet, or Codeine) without a doctor telling you to take them;
- prescription stimulants (such as Adderall, Ritalin, or Dexedrine) without a doctor telling you to take them;
- prescription sedatives (tranquilizers such as Valium or Xanax, barbiturates, or sleeping pills) without a doctor telling you to take them;
- over the counter (OTC) drugs (such as cough syrup, cold medicine, or diet pills) for the purpose of getting high;
- synthetic drugs (such as Bath Salts or herbal incense products);
- beer, wine or hard liquor at the same time you used prescription drugs; or
- “phenoxydine (pox, px, breeze).”

The drug phenoxydine does not exist, but was included for data validity purposes. Youth who responded that they used this drug may not be answering questions honestly. We include these responses, but note the prevalence of this answer as a measure for possible untruthful answers.

Substance Use in the Last 30 days is a measure of the percentage of youth who used a given substance at least once in the 30 days prior to taking the survey. This serves as a proxy for the level of current use of the substance. Data are shown for the past three survey administrations in order to note any trends of increased or decreased use.

Lifetime Substance Use is a measure of the percentage of youth who tried a particular substance at least once in their lifetime, and is used to show the percentage of youth who have had experience with a specific substance.

Frequent Use of Substances is a measure of the percentage of youth who used the substance at least 10-19 times in the 30 days prior to taking the survey. This acts as a proxy for addiction or abuse of substances.

Binge Use of alcohol defined as having had five or more drinks in a row, at some point during the two weeks prior to the survey.

Poly-substance Use is defined in this survey as consuming alcohol and prescription drugs at the same time, at some point during the 30 days prior to the survey.

Figure 2: Substance Use in Last 30 Days (10th Grade)

Figure 3: Substance Use in Last 30 Days (12th Grade)

30-day Substance Use, from 2012 to 2016

Figure 4 shows 30-day substance use trends for a variety of common substances, drawing from the results of the 2012, 2014, and 2016 Arizona Youth Surveys. The bars represent the percentage of youth who report having used each of the substances in the 30 days prior to taking the survey. In some cases the sample size for past years was too small for a specific grade in a specific county, and so the data are suppressed.

3.2 Gang Involvement

Definitions

Gang Involvement is measured by a series of questions centered on current and past gang membership for self and friends, as well as the major reason for membership. Association with “delinquent” peers has been identified as a correlate of individual gang involvement and other anti-social behaviors (Esbensen et al., 2009; Klein and Maxson, 2006). This item is examined with a question pertaining to peer gang membership (i.e. best friends were in a gang in the past year).

Research has also indicated that perceptions of gang involvement are important to understanding potential or future gang involvement of youth (Lopez et al., 2006). To inspect this further, Gang Involvement also asks whether youth think that they will be seen as “cool” if they belong to a gang, as well as whether or not they have taken money in the last 30 days to support gang activities.

- Ever belonged to a gang percentages represented in charts refer to those youth who responded “yes” or “no, but would like to.”
- Friends ever belonged to a gang percentages represented in charts refer to those youth who stated that one or more of their four best friends had been members of a gang in the last 12 months.
- The chances of being seen as cool if you were part of a gang percentages represented in charts refer to those youth who stated some, pretty good, or very good chance.
- Taking money to support gang activities percentages represented in charts refer to those youth who stated that they’ve stolen money to support gang activities one or more times in the past 30 days.
- Reasons for belonging to a gang percentages represented in charts refer to those youth who said they had ever belonged to a gang, and then selected the major reason why they joined (those who reported having belonged to a gang but did not provide a reason are *not* included).

3.3 Bullying

Definitions

Bullying is a form of aggression, often expressed through physical or psychological harassment, which can lead to feelings of being unsafe and to increased absences (Batsche and Knoff, 1994; Gastic, 2008; Kearney, 2008). It is measured by several questions including experiences with being bullied at school, being a target of cyber-bullying (harassed online or via a cell phone or electronic device), as well as any occurrences of bullying on the part of the respondent. Lastly, this section includes responses to a question concerning being a witness to bullying on school property and willingness to intervene (i.e. did nothing to stop it). Data represented in charts refer to the percentage of youth who engaged in or witnessed each activity on one or more occasions over the past 12 months.

Figures

Figure 24: Bullying (8th Grade)

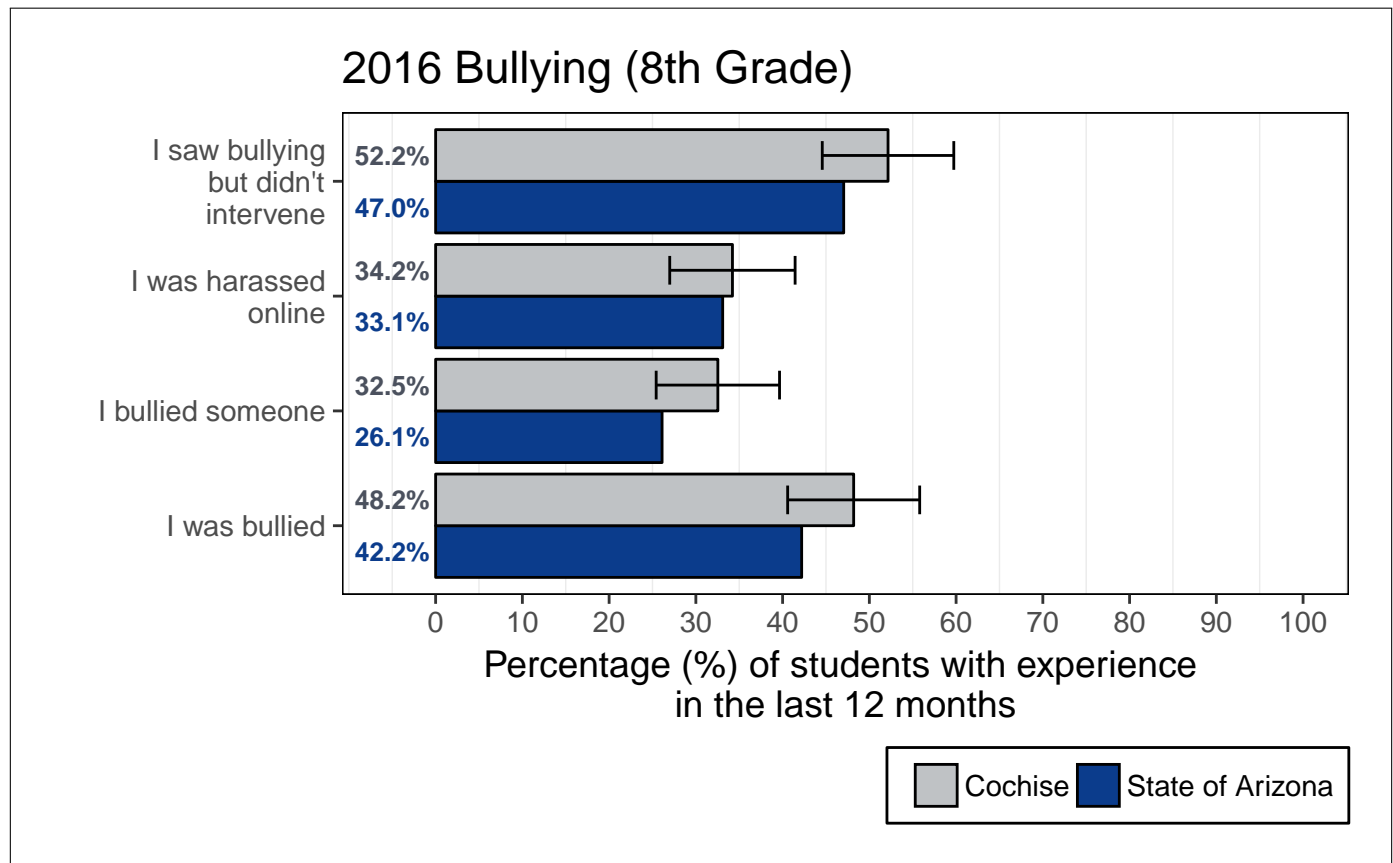

Figure 25: Bullying (10th Grade)

Figure 26: Bullying (12th Grade)

3.4 Adverse Childhood Experiences (ACEs)

Definitions

The original Kaiser Permanente Adverse Childhood Experiences (ACE) Study, conducted from 1995 to 1997, established the link between early childhood experiences of abuse or neglect and the presence of health issues in adulthood (Felitti et al., 1998). Through this study, the prevention community was able to determine that, as the number of ACEs a child is exposed to increases, so does the risk level for negative health outcomes later in life.

Many researchers have now turned their focus to understanding the impact of adverse childhood experiences on behaviors during adolescence and beyond (Anda et al., 2006; Jonson-Reid et al., 2012). To assess youths' exposure to these situations, and the possible effects from experiencing ACEs, six ACEs-related questions similar to several of those asked of adults in the national study were examined in the 2016 AYS. Youth were asked questions regarding ever living with anyone who was a problem drinker/alcoholic, living with anyone who has used or abuse drugs and medications, living with anyone who had served time in prison or jail, having parents who are separated or divorced, and experiencing the presence of physical or emotional abuse in their homes. Percentages reported are for those youth who responded yes to each of the questions.

Figures

Figure 27: Adverse Childhood Experiences (8th Grade)

Figure 28: Adverse Childhood Experiences (10th Grade)

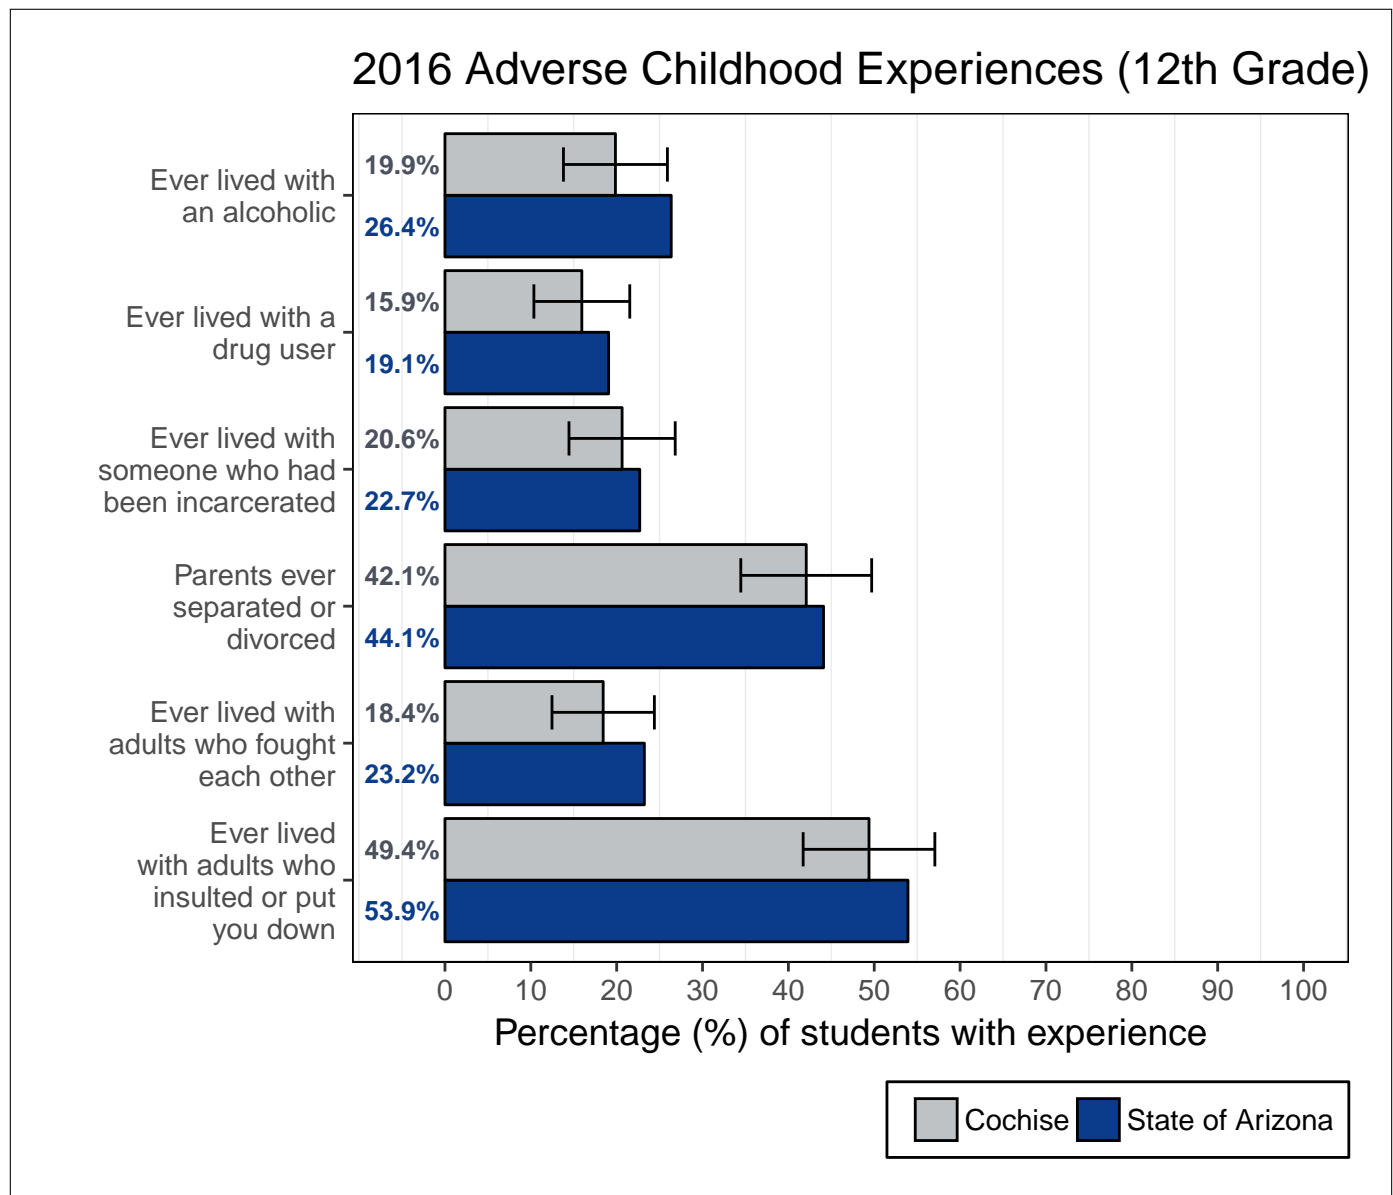

Figure 29: Adverse Childhood Experiences (12th Grade)

Section 4: Consequences of Problem Behaviors

4.1 Impaired Driving

Definitions

Impaired Driving has often focused on alcohol use, but researchers have begun to explore the use of other drugs and driving, especially marijuana (Maxwell, 2012).

Impaired Driving is measured by asking youth to answer four questions about their driving or passenger behavior in the past 30 days. The percentage of youth who acknowledged that they engaged in each of these behaviors at least once is reported:

- rode with someone who had been drinking alcohol;
- drove a car/vehicle after drinking alcohol;
- drove a car/vehicle after taking prescription drugs for the experience; and
- drove a car/vehicle after using marijuana.

Figures

Figure 30: Impaired Driving (8th Grade)

Figure 31: Impaired Driving (10th Grade)

Figure 32: Impaired Driving (12th Grade)

4.2 School Safety

Definitions

School Safety is often viewed in terms of the absence of harmful incidents or crimes on school grounds, usually measured within a year, or measured relative to other schools or benchmarks (Langbein and Bess, 2002). School safety is measured by a series of questions that assess overall feelings of safety and its impact on certain behaviors. Youth were asked if they felt safe at school, as well as the number of days they did not attend due to feeling unsafe at, or on their way to campus in the last 30 days. Further, youth responded to questions about being threatened or injured with a weapon on school property, as well as the number of occasions they were in a physical fight on campus within the past year.

Figures

Figure 33: School Safety (8th Grade)

Figure 34: School Safety (10th Grade)

Figure 35: School Safety (12th Grade)

Section 5: Contextual Factors

5.1 Risk and Protective Factors

Definitions

Risk and Protective Factors (RPF) are personal and environmental factors that may influence a person's likelihood of engaging in problem behaviors (Hawkins et al., 1992). Risk Factors increase the chances of a person participating in concerning behaviors, while Protective Factors decrease this likelihood. The Risk and Protective Factor scales included in the AYS measure specific aspects of a youth's life experience that are known to be associated with whether they will subsequently engage in problem behaviors. The scales are grouped into four domains: peer/individual, family, school, and community. The Risk and Protective Factor charts in Section 5.1 depict a composite 'risk score' or 'protective score' which represent the degree to which respondents are at risk or have protection against developing problem behaviors in a particular domain. Ideally, risk scores should be on the lower end of the scale (indicating a lower risk level among the sample), whereas protection scores should be higher (indicating a higher level of protection among the sample). The composite scores were calculated from groups of questionnaire items related to each particular domain.

Because many of the questions in the 2016 version of the AYS were carried over from earlier versions of the instrument, it was possible to reconstruct a number of equivalent comprehensive scales for the 2016 data. The construction of the scales involved taking means (average scores) of each of their components, which were mostly in the form of Likert scales (e.g. Strongly Disagree to Strongly Agree), with some requiring reverse coding for consistency. Other types of components included simple dichotomous Yes or No responses; or count variables (e.g. "How many of your best friends..."). Individuals with missing responses on more than one of the scales' component questions were excluded from the construction of the scales in order to minimize response bias.

For each of the charts, the scales are harmonized so that they each range to a maximum of 10. This is done because some scales have a natural range of 1-4, while other scales range from 1-5, which does not allow for accurate comparisons of factor levels. While the rescaling allows for the factors to be compared, the meaning of actual scores should not be taken in real units, but instead taken as a Likert scale range similar to the common phrase "on a scale of 0 to 10."

Peer-Individual Risk Factors

Rewards for Antisocial Behavior: Youth who receive rewards for their antisocial behavior are at higher risk for future engagement in problem behaviors. Rewards for antisocial behavior, in the peer-individual domain, include being seen as cool by peers for using substances or participating in problem behaviors (Fleming et al., 2008; Meghdadpour et al., 2012). Data represented in charts refer to youth who indicated that there would be a very good chance that they would be seen as cool if they used substances or participated in problem behaviors (e.g. carrying a handgun). Higher scores indicate a higher level of reward for antisocial behavior.

Rebelliousness: Youth who participate in behaviors considered against conventional laws and norms have a high tolerance for deviant behavior, low perceived risk, or a strong need for independence and

sensation seeking. These place youth at substantial risk for drug use (Cleveland et al., 2008). Youth were asked if they often ignore rules or do the opposite of what they're told to do just to get away with it. Data represented in charts refer to the extent to which youth demonstrate these behaviors. Higher scores indicate a higher level of rebelliousness.

Perceived Risk of Harm: Youth who do not perceive drug use to be risky (i.e. believing people cannot be harmed physically, mentally, or legally when using substances) are far more likely to engage in drug use themselves (Danseco et al., 1999; Perron and Howard, 2008). Youth were asked if they think people risk harming themselves when using alcohol, cigarettes, marijuana, or prescription drugs without a doctor telling the youth to take them. Data represented in charts refer to the extent to which youth perceive little to no risk in using substances. Higher scores indicate a low level of perceived risk.

Interaction with Antisocial Peers: Youth who associate with peers who engage in problem behaviors are at higher risk for engaging in antisocial behavior themselves (Jonkman et al., 2011; Stockwell et al., 2004). Participants were asked about how many of their friends have been suspended from school, dropped out of school, carried a handgun, sold drugs, stolen a car, or been arrested in the last 12 months. Data represented in charts refer to the quantity of friends who engaged in that behavior. Higher scores indicate more interaction with antisocial peers.

Friends' Use of Drugs: Youth who spend time with friends who engage in substance use are more likely to engage in the same behavior. Peer drug use has consistently been found to be among the strongest predictors of substance use among youth (Beyers et al., 2004; Iannotti et al., 1996; Yamaguchi and Kandel, 1984). Participants were asked if any of their friends use alcohol, cigarettes, marijuana, other illicit drugs or prescription drugs without a doctor telling the youth to take them. Data represented in charts refer to friends' use or abuse of drugs. Higher values indicate more friends who use drugs.

Attitudes Favorable toward Drug Use: As youth grow older, they have a higher likelihood of being exposed to others who engage in drug use or have a greater acceptance of these behaviors. This exposure may influence a youth's attitude toward drug use and increase the likelihood of them engaging in a variety of problem behaviors (Arthur et al., 2002; Bahr et al., 2005; Bauman and Ennett, 1996; Beyers et al., 2004). This factor examines how wrong youth perceive it is to use four different substance groups: alcohol, cigarettes, marijuana, and LSD/cocaine/amphetamines/illegal drugs. Data represented in charts refer to youth attitudes towards using drugs. Higher values indicate more favorable attitudes toward drug use.

Attitudes Favorable toward Antisocial Behavior: As previously stated, youths' attitudes may change as they are exposed to different social circles (Gassman et al., 2012; Maguire, 2013). This factor aims to understand youth perceptions of how wrong it would be to stay away from school, take a handgun to school, pick a fight, seriously attack someone, and steal anything worth more than \$5. Data represented in charts refer to youth attitudes about these behaviors. Higher scores indicate more favorable attitudes towards antisocial behavior.

Gang Involvement: Youth who belong to gangs and associate with gang-involved peers are more at risk for antisocial behavior and drug use (Curry and Spergel, 1992; Herrenkohl et al., 2000). Conditioned on ever being in a gang, this scale includes questions about age of first involvement and the membership status of best friends. The Gang Involvement Risk Factor measures the participant's own gang involvement. Data shown in charts refer to the degree to which youth are involved in gangs. Higher values indicate more gang involvement.

Early Initiation of Drug Use: Early onset of drug use has been linked to increased drug use and abuse through adolescence and beyond, with later age of onset more likely to lead to reduced drug involvement and a greater likelihood of discontinuation of use (Kandel, 1975; Miller et al., 2006). To assess the scope of onset among the sample, this factor looks at the age at which youth first tried cigarettes, marijuana, or alcohol, and when youth first began drinking regularly. Data reported reflect participants who stated they began using substances at an early age. Higher values indicate earlier use of substances.

Peer-Individual Protective Factors

Rewards for Prosocial Involvement: Youth who are rewarded for working hard in school and the community are less likely to engage in problem behaviors. Rewards for prosocial involvement include being seen as cool for trying your best at school, defending someone who is being bullied, or regularly volunteering in the community (Catalano et al., 1996; Cleveland et al., 2008). Data contained in charts represent the extent to which youth think that they would be seen as cool if they participated in prosocial activities. Higher scores indicate more rewards for prosocial involvement.

Prosocial Involvement: Youth who participate in positive school and community activities are less likely to participate in problem behaviors (Arthur et al., 2002; Beyers et al., 2004; Catalano et al., 1996). Data contained in charts represent the degree to which youth participated in school clubs and organizations or volunteered in the community. Higher scores indicate more prosocial involvement.

Interaction with Prosocial Peers: Youth who associate with peers who engage in prosocial behavior are more likely to participate in prosocial behavior as well. Data represented in charts refer to the quantity of friends with whom youth have participated in prosocial activities in the past 12 months. Higher scores indicate higher interaction with prosocial peers.

Belief in the Moral Order: Youth who have a belief in what is “right” or “wrong” are less likely to use drugs (Beyers et al., 2004; Catalano et al., 1996). Participants were asked about how wrong they believe it would be for someone their age to steal anything worth more than \$5, cheat in school, or start a fight. Data in these charts refer to youth attitudes towards these behaviors. Youth were also asked about how important they think it is to be honest with their parents; data represent the extent to which youth agreed that it is important for them to be honest with their parents. Higher scores indicate higher belief in moral order.

Family Domain Risk Factors

Poor Family Management: Parents’ use of inconsistent and/or unusually harsh punishment with their children places their children at a higher risk for participation in substance use and other problem behaviors. This higher risk is also seen in youth whose parents do not provide clear explanations for expected behaviors and do not monitor their children’s activities (Arthur et al., 2002; Dishion et al., 2004). Youth were asked if their parents usually know who they are spending time with, if there are clear rules in their household, and if their parents would be aware of the youth’s participation in problem behaviors. Data in charts display the extent to which youth indicated that their families had poor management practices. Higher score indicate poor family management.

Parental Attitudes Favorable toward Drug Use: In families where parents use illegal drugs, are heavy

users of alcohol, or are tolerant of children's use, youth are more likely to become drug abusers during adolescence. The risk is further increased if parents involve children in their own drug use, such as asking their child to light a cigarette or get a beer from the refrigerator (Beyers et al., 2004; Herrenkohl et al., 2000). To capture data on this concept, participants were asked if their parents think it is wrong for them to use cigarettes, alcohol or marijuana. Data represented in charts refer to the extent to which youth believe their parents would accept their child using substances. Higher scores indicate more favorable parental attitudes towards drug use.

Parental Attitudes Favorable toward Antisocial Behavior. Youth often follow the example of those around them. Parental attitudes that are positive to antisocial or rebellious behaviors can be seen as an approval of the youth's participation in those behaviors. Examples of parental attitudes being favorable toward antisocial behavior include parents believing it is not wrong for someone to steal items, pick a fight, or damage someone else's property (Gassman et al., 2012; Maguire, 2013). Participants of the survey were asked if their parents thought it would be wrong for them to participate in these antisocial behaviors. The data in this chart represent the extent to which youth believe their parents would think it is acceptable to participate in these behaviors. Higher scores indicate more favorable parental attitudes towards antisocial behavior.

Family History of Antisocial Behavior. When youth are raised in a family with a history of problem behaviors (e.g. violence, alcohol, or other drug use), they are more likely to engage in these behaviors themselves (Corrigan et al., 2007). Participants were asked about the presence of alcohol or drug problems in their family, and the general use of alcohol and other drugs by family members. Data in the chart represent the extent to which youth indicated that they have family members who engage in these problem behaviors or have engaged in these behaviors in the past. Higher values indicate more antisocial behavior among family members.

Family Conflict. Youth raised in families who experience high levels of conflict, whether or not the child is directly involved in these conflicts, are more likely to engage in delinquent behaviors and drug use (Szapocznik and Williams, 2000). Youth were asked questions regarding the presence of conflict in their home (e.g. household members having serious arguments or yelling at and insulting each other often). Data contained in these charts represent the extent to which youth state that their family experiences these heightened levels of conflict. Higher scores indicate more family conflict.

Family Domain Protective Factors

Rewards for Prosocial Involvement. When parents, siblings, and other family members praise or encourage activities done well by a child, youth are less likely to engage in substance use and other problem behaviors (Catalano et al., 1996; Cleveland et al., 2008). Participants were asked if their parents often communicate feeling proud of them or notice them doing a good job. Youth were also asked questions regarding spending time with their mother or father. Data in the charts refer to the extent to which youth stated that spending time with their mother and/or father is enjoyable, and that their parents communicate being proud of them and notice when they do a good job. Higher scores indicate more rewards for prosocial involvement.

Opportunities for Prosocial Involvement. Youth who are exposed to more opportunities to participate meaningfully in the responsibilities and activities of the family are less likely to engage in drug use and

other problem behaviors. Opportunities for prosocial involvement, at the family domain level, include youth being able to do fun activities with their family members, being a part of family decision-making, and being able to rely on family members for help when needed (Arthur et al., 2002; Beyers et al., 2004; Catalano et al., 1992). Data in the charts represent youth who stated that they have opportunities for prosocial involvement. Higher scores indicate more opportunities for prosocial involvement.

Family Attachment: Youth who feel that they are close to or are a valued part of their family are less likely to engage in substance use and other problem behaviors (Arthur et al., 2002; Catalano et al., 1992). Youth were asked questions regarding if they feel close to their family members and if they share thoughts and feelings with their mother and father. Data in charts refer to the extent to which youth feel close with their family members, and believe it is important to share thoughts or feelings with their parents. Higher scores indicate more family attachment.

School Domain Risk Factors

Low Commitment to School: Youth who do not feel connected to or have low commitment to school are more likely to use drugs and participate in other problem behaviors. Low school commitment is measured through items such as disliking school, spending little time on homework, and perceiving course work as irrelevant to one's future (Brown et al., 2005; Catalano et al., 2002). The data in the charts reflect the extent to which youth stated that they dislike school or believe school is not important. Higher scores indicate lower commitment to school.

Academic Failure: Youth who experience academic failure are at a higher risk of participating in drug abuse and other problem behaviors throughout adolescence (Bryant et al., 2003; Catalano et al., 2002; Hawkins et al., 1999). Participants were asked about the grades they received during the past year, and scores indicate the extent to which youth received lower grades such as D's and F's. Higher scores indicate more academic failure.

School Domain Protective Factors

Rewards for Prosocial Involvement: When youth are recognized and rewarded for their contributions at school, they are less likely to be involved in substance use and other problem behaviors (Catalano et al., 1996; Cleveland et al., 2008). Participants were asked if their teachers notice when they are doing a good job, praise them for hard work, and tell their parents about how well they are doing in school. Data represent the extent to which youth stated they receive rewards for participating in prosocial activities. Higher scores indicate more rewards for prosocial involvement.

Opportunities for Prosocial Involvement: When youth are given opportunities to participate meaningfully in important activities at school, they are less likely to engage in drug use and other problem behaviors (Arthur et al., 2002; Beyers et al., 2004; Catalano et al., 1992). Youth were asked about having the chance to participate in school activities, being asked to work on special projects in the classroom, and being able to speak with their teacher one-on-one. Data in each chart represent the extent to which youth stated that they have opportunities to participate in prosocial activities in school. Higher scores indicate more opportunities for prosocial involvement.

Community Domain Risk Factors

Perceived Availability of Handguns: The perception that handguns are easily obtainable in the community may influence the presence of violent behaviors in youth (Beyers et al., 2004; Herrenkohl et al., 2007). Participants were asked if they believe it would be easy for them to obtain a handgun. Data shown in charts represent the extent to which youth believe that it would be easy to obtain a handgun in their community. Higher scores indicate greater perceived availability of handguns.

Perceived Availability of Drugs: If youth believe it is easy to obtain drugs they are more likely to use these substances (Beyers et al., 2004; Johnston et al., 2009). Youth were asked if they believe it would be easy for them to acquire substances such as cigarettes, alcohol, marijuana, or other illicit drugs. The data presented in each chart represent the extent to which youth believe it would be easy to obtain substances. Higher scores indicate greater perceived availability of drugs.

Low Neighborhood Attachment: Youth who do not feel connected to the neighborhoods in which they live are more likely to become involved in problem behaviors (Beyers et al., 2004; Herrenkohl et al., 2000). Participants were asked if they liked living in the neighborhood or desired to move out of their neighborhood. The data shown in each chart refer to the extent to which youth indicated that they did not like their neighborhood or wished to move out of their neighborhood. Higher scores indicate lower neighborhood attachment

Laws and Norms Favorable toward Drug Use: Legal restrictions on substance use, such as raising the legal drinking age or restricting smoking in public places, may influence the degree to which youth consume these substances. Moreover, youth who live in communities that view substance use as “normal activity” have a higher chance of using substances themselves (Arthur et al., 2002; Cleveland et al., 2008; Hawkins et al., 2002). Participants were asked if adults in their neighborhood would think it is wrong for them to use substances, or if they were likely to be caught by law enforcement when using substances. Data in the chart refer to those youth who stated that they believe that people would not be caught by law enforcement when using drugs, or stated that adults in their neighborhood believe using drugs is acceptable. Higher scores indicate more favorable laws and norms towards drug use.

Community Domain Protective Factors

Rewards for Prosocial Involvement: Rewards for positive participation in activities helps youth bond to their communities, and lowers their risk of participating in problem behaviors. Youth were asked if their neighbors encourage them to try their best in various activities, talk with them regarding something important, and if community members ever inform the youth that they are proud of them for doing something well (Catalano et al., 1996; Cleveland et al., 2008). Data in the charts represent the extent to which youth agree with positive statements about their neighbors. Higher scores indicate more rewards for prosocial involvement.

5.2 Other Contextual Factors

Definitions

Aside from the established Risk and Protective Factors, there are other contextual factors that may influence the prevalence of drug use and other problem behaviors in youth. Data relating to a number of these key indicators are provided by the Arizona Youth Survey, including: (1) sources of drugs and alcohol; (2) substance offers and resistance strategies; (3) ease of access; (4) age of initiation; (5) parent-youth communication; and (6) reasons for use and non-use.

Sources of Drugs and Alcohol

Several questions asked the participants who used alcohol, marijuana or prescription drugs during the past 30 days how they obtained each substance (e.g. from home, parties, friends, or adults). The answer categories for these questions are not mutually exclusive, and youth were able to select more than one response option. The data shown in each table refer to the percentage of youth who reported having obtained each substance via the categories shown in the figures. Importantly, the percentages refer to the total percentage of students who selected each response, and do *not* reflect whether that particular student also reported ever having used the relevant substance.

Substance Offers and Resistance Strategies

Youth may be offered substances without communicating an interest in using those substances (Pettigrew et al., 2012). Participants were asked if they were offered drugs in the past 30 days, if they avoided areas where drug consumption was known to happen, and if they have had conversations with their parents about how to respond to drug offers. The data presented in charts reflect those youth who answered that they had experienced at least one drug offer in the last 30 days, had avoided places where drug consumption occurs at least once in the last 30 days, and if they have spoken to their parents at least once in the past 12 months about resisting drug offers.

Youth were also asked how they responded to drug offers in the past 30 days. Data represented in charts refer to those students who stated that they were offered substances and used a specific method in order to resist these offers.

Ease of Access to Substances and Handguns

These charts examine youths' perceptions about how easy they believe it would be to obtain specific drugs or handguns. Percentages represented refer to those youth who believe it is very easy or sort of easy to obtain alcohol, cigarettes, marijuana, other drugs, or handguns in their community.

Age of Initiation

The earlier youth participate in risky problem behaviors, the more likely they are to continue those behaviors later in their lifespan (Harachi et al., 2001; Hawkins et al., 1997). Participants were asked how old they were when, if ever, they first used substances, attacked someone with the idea of seriously hurting

them, belonged to a gang, or gambled. Data were calculated to produce the average age of initiation and the median age of initiation for each problem behavior. Average age, also known as the mean, is calculated by adding all the ages of the respondents and then dividing that number (the sum) by the number of scores initially added together. Median age shows the middle value of the ages of initiation for each activity. The median age is found by listing all the ages in numerical order and identifying the number in which one-half of the values are larger than this middle number and one-half of the values are smaller than this number. The average age and median age are important to note in order to obtain a better understanding of when youth may begin participating in each of these behaviors.

Parent/Youth Communication

Youth who do not speak with their parents about the dangers of substance use are more likely to participate in drug use and other problem behaviors (Yu et al., 2006). Participants were asked questions regarding having discussions with their parents about the dangers and risks of each drug. The Parent/Youth Communication charts represent the percentage of youth who report having talked with at least one of their parents in the past 12 months about the dangers of various drugs. Percentages relating to the response category “did not talk to parents about these topics” refer to those youth who have not talked to a parent about the dangers of substances during the past 12 months.

Reasons for Substance Use and Non-Use

There are multiple motivating factors that can influence someone’s decision to use or not use substances (Boys et al., 2001). Participants were asked why they did and/or did not use drugs in the past 30 days, and were able to select all the reasons that influenced their decisions. Percentages listed in charts are categorized by substance users and non-users. Charts relating to reasons for use only include those youth who stated they used a substance in the last 30 days. Charts relating to reasons youth did not use substances only include participants that stated they did not use any substances in the last 30 days.

Section 6: Drug-Free Communities – National Outcome Measures

Background

These questions provide the measures that communities in Arizona with Drug-Free Communities grants must report (DFC Regular Standard Terms of Award, 2015). Three overall areas are reported:

- Substance Use in the Past 30 Days
- Perceived Risk of Harm
- Disapproval (Parent and Peer)

6.1 Substance Use in the Past 30 Days

Charts for substance use over the most recent 30 days can be found in Section 3.1: Substance Use, and Frequency of Use. Section 3.1 includes separate figures for the 8th, 10th, and 12th grade samples, as well as a line graph that displays the usage trends of key substances over time (2012 to 2016).

6.2 Perceived Risk of Harm

Youth who perceive little to no risk of harm in using alcohol or drugs may be more likely to use or abuse these substances (McCambridge and Strang, 2004; Tomar and Hatsukami, 2007). Charts for perceived risk of harm associated with specific substance use represent youths' perceptions about the harm associated with the use of common substances. Percentages reported refer to those students who believe there is no to slight risk in using each of the specific substances listed.

6.3 Parent and Peer Disapproval

Definitions

Parental and peer disapproval are important variables to consider when thinking about youth substance use, as they may influence a youth's decision to initiate, use, or continue to use or abuse substances (Sawyer and Stevenson, 2008). This section includes measures of Parent and Peer Disapproval, defined in this survey as the degree to which youth think their parents and peers would feel it is wrong, a little bit wrong, or very wrong for youth to engage in the following behaviors:

- Smoke cigarettes;
- Smoke marijuana;
- Consume one or two drinks of beer, wine or hard liquor nearly every day; and
- Use prescription drugs without a doctor telling the youth to take them.

Section 7: School Climate Experiences

7.1 Student-Teacher Interactions

Definitions

Youth were asked about a variety of experiences at school and interactions with others, including teachers, peers, and parents. Questions were asked about their involvement in the classroom and other activities, interactions with teachers, their school's interaction with their parents, and their feeling safe at school. The percentage of youth who agreed or strongly agreed with each of the statements is reported.

Figures

Figure 99: Student-Teacher Interactions (8th Grade)

Figure 100: Student-Teacher Interactions (10th Grade)

Figure 101: Student-Teacher Interactions (12th Grade)

7.2 Negative Peer Interactions

Definitions

Peer interactions at school are also important variables to consider when thinking about possible influences on behavior. Questions were asked regarding how often specific kinds of negative interactions happen, including youth being made fun of by other students, being pushed or hit by other students, feeling that other students are being mean to them, or feeling that they are excluded by other students during activities. The responses were five-point scales with 1 defined as “Never/Almost never” and 5 defined as “Always/Almost always.” The figures depict the average response on this five-point scale.

Figures

Figure 102: Negative Peer Interactions (8th Grade)

Figure 103: Negative Peer Interactions (10th Grade)

Figure 104: Negative Peer Interactions (12th Grade)

Section 8: Well-Being

8.1 Perceived Stress

Definitions

Perceived Stress has been connected to substance use by adolescents (Finkelstein et al., 2006; Kobus and Reyes, 2000; Sussman et al., 1993). Cohen et al. (1983) developed the Perceived Stress Scale, which has been widely used in research projects to assess stress (e.g., Mimura and Griffiths, 2004). Percentages represented in charts refer to those youth who stated that in the last month they sometimes, fairly often, or very often felt confident about their abilities to handle their personal problems, felt that things were not going their way, or felt that they were unable to control important things in their life and were unable to overcome difficulties.

Figures

Figure 105: Perceived Stress (8th Grade)

Figure 106: Perceived Stress (10th Grade)

Figure 107: Perceived Stress (12th Grade)

8.2 Future Orientation

Definitions

Youth who have a positive outlook on their future, establish goals for the future, or give greater attention to future consequences of their behavior are less likely to engage in problem behaviors. These concepts are often analyzed together in order to measure an individual's future orientation (Keough et al., 1999). Students were asked a series of statements about their future and goals, and percentages represented in charts refer to those youth who stated these statements were exactly, a lot, or somewhat like them. Participants were also asked how often they make plans for their goals or have trouble figuring out how to make their goals happen. Percentages represented in these charts refer to those youth who stated they create goals, or have trouble with their goals, all, most or some of the time.

Section A: Appendices

This report includes four appendices containing supplementary information about the Arizona Youth Survey. The appendices and their contents are described in the following list.

Appendix A: List of References

contains bibliographic information for all research articles and books cited in this report

Appendix B: Scantron Questionnaire

contains the complete Scantron version of the 2016 Arizona Youth Survey

Appendix C: Risk & Protective Factor (RPF) Scale Definitions

provides information about how questionnaire items were combined to form the RPF scales used in the RPF figures in Section 5.1

Appendix D: Wording Changes in 2016 Questionnaire

lists all changes in the exact wording of questionnaire items, starting from the 2004 Arizona Youth Survey, until the current 2016 administration

A: List of References

This appendix provides citation information for all research articles and books referred to in this report. A complete bibliography database file in BibTeX format is available upon request.

B: Scantron Questionnaire

The following pages contain the 2016 AYS Scantron-format questionnaire in its entirety. All students in the 2016 Arizona sample provided their responses either on this Scantron questionnaire, or a web-based version that had identical text for every item. All figures in this document were constructed from students' responses to the questions in the questionnaire.

ARIZONA YOUTH SURVEY

1. Thank you for agreeing to participate in this survey. The purpose of this survey is to learn how students in our schools feel about their community, family, peers, and school. The survey also asks about health behaviors.
2. **The survey is completely voluntary and anonymous. DO NOT put your name on the questionnaire.**
3. This is not a test, so there are no right or wrong answers. We would like you to work quickly so you can finish.
4. All of the questions should be answered by completely filling in one of the answer spaces. If you do not find an answer that fits exactly, use the one that comes closest. If any question does not apply to you, or you are not sure what it means, just leave it blank. You can skip any question that you do not wish to answer.
5. **Please answer each question by completely filling in the oval with a #2 pencil.**

Please fill in the following information with the help of your teacher/survey assistant.

1. County:

6. Are you: ☐ MALE ☐ FEMALE

7. How old are you?

- ☐ 10 or younger ☐ 12 ☐ 14 ☐ 16 ☐ 18
☐ 11 ☐ 13 ☐ 15 ☐ 17 ☐ 19 or older

8. What grade are you in?

- ☐ 6th ☐ 7th ☐ 8th ☐ 9th ☐ 10th ☐ 11th ☐ 12th

9. Do you get a free or reduced cost lunch at school?

- ☐ Free lunch ☐ Reduced cost lunch ☐ Neither

10. Are you Hispanic or Latino? ☐ Yes ☐ No

11. What is your race? (Mark all that apply.)

- ☐ American Indian or Alaska Native
☐ Asian
☐ Black or African American
☐ Hawaiian or Other Pacific Islander
☐ White

12. Think of where you live most of the time. Which of the following people live there with you? (Mark all that apply.)

- | | |
|--|--------------------------------------|
| <input type="radio"/> Mother | <input type="radio"/> Uncle |
| <input type="radio"/> Stepmother | <input type="radio"/> Other Adult(s) |
| <input type="radio"/> Father | <input type="radio"/> Brother(s) |
| <input type="radio"/> Stepfather | <input type="radio"/> Stepbrother(s) |
| <input type="radio"/> Foster Parent(s) | <input type="radio"/> Sister(s) |
| <input type="radio"/> Grandparent(s) | <input type="radio"/> Stepsister(s) |
| <input type="radio"/> Aunt | <input type="radio"/> Other Children |

13. Are your parents separated or divorced?

- ☐ Yes ☐ Parents not married
☐ No ☐ Don't know / Not sure

14. What is the highest level of education completed by your mother?

- | | |
|---|---|
| <input type="radio"/> 8th grade or less | <input type="radio"/> Completed 4 year college (Bachelor's Degree) |
| <input type="radio"/> Some high school | <input type="radio"/> Graduate or Professional (e.g., Master's, Ph.D., M.D., Ed.D., J.D.) |
| <input type="radio"/> Completed high school or GED | <input type="radio"/> Don't know |
| <input type="radio"/> Some college | |
| <input type="radio"/> Completed community college or technical school | |

15. What, if any, is the current military status of your parent(s)? (Mark all that apply)

- ☐ Neither of my parents have ever been in the military
- | | |
|-----------------------------------|---|
| <input type="radio"/> Active Duty | <input type="radio"/> In country |
| | <input type="radio"/> Overseas – not in a combat zone |
| | <input type="radio"/> Overseas – in a combat zone |
- ☐ Reserve
- | |
|---|
| <input type="radio"/> Not Deployed |
| <input type="radio"/> In country |
| <input type="radio"/> Overseas – not in a combat zone |
| <input type="radio"/> Overseas – in a combat zone |
- ☐ Former military
☐ Died while serving in the military

16. Which of the following people do you feel comfortable going to for help when things go wrong or when you need someone to talk to about your problems? (Mark all that apply.)

- | | |
|--|---|
| <input type="radio"/> Parents/Step-parents | <input type="radio"/> Coaches/Instructors |
| <input type="radio"/> Grandparents | <input type="radio"/> Mentors |
| <input type="radio"/> Siblings | <input type="radio"/> Tutors |
| <input type="radio"/> Other relatives | <input type="radio"/> Counselors |
| <input type="radio"/> Friends | <input type="radio"/> Other adults |

The next section asks about your experiences at school.

	Strongly disagree	Disagree	Agree	Strongly agree
17. In my school, students have lots of chances to help decide things like class activities and rules.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
18. I have lots of chances to be part of class discussions or activities.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
19. Teachers ask me to work on special classroom projects.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
20. My teachers notice when I am doing a good job.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
21. There are lots of chances for students in my school to get involved in sports, clubs, and other school activities outside of class.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
22. There are lots of chances for students in my school to talk with a teacher one-on-one.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
23. I feel safe at my school.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
24. The school lets my parents know when I have done something well.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
25. My teachers praise me when I work hard in school.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
26. I have lots of chances to be part of class discussions or activities.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

27. Now thinking back over the past year in school, how often did you:

	Never	Seldom	Sometimes	Often	Almost always
a. enjoy being in school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. hate being in school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. try to do your best work?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. feel that the school work you were assigned was meaningful and important?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

28. Putting them all together, what were your grades like last year?

- ☐ Mostly A's ☐ Mostly D's
☐ Mostly B's ☐ Mostly F's
☐ Mostly C's

29. How important do you think the things you are learning in school are going to be for you later in life?

- ☐ Very important ☐ Slightly important
☐ Quite important ☐ Not at all important
☐ Fairly important

30. How interesting are most of your courses to you?

- ☐ Very interesting ☐ Slightly interesting
☐ Quite interesting ☐ Not at all interesting
☐ Fairly interesting

31. During the past 30 days, how many days of school have you missed because you skipped or 'cut'?

- ☐ None ☐ 4-5 days
☐ 1 day ☐ 6-10 days
☐ 2 days ☐ 11 or more days
☐ 3 days

	0 times	1 time	2-3 times	4-5 times	6-7 times	8-9 times	10-11 times	12 or more times
32. During the past 12 months, how many times has someone threatened or injured you with a weapon such as a gun, knife, or club ON SCHOOL PROPERTY?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
33. During the past 12 months, how many times were you in a physical fight ON SCHOOL PROPERTY?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
34. During the past 12 months, how often have you been picked on or bullied by a student ON SCHOOL PROPERTY?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
35. During the past 12 months, how many times have you been harassed, mistreated, or made fun of by another person while on-line or through a cell phone or other electronic device?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
36. During the past 12 months, how often have you picked on or bullied another student ON SCHOOL PROPERTY?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
37. During the past 12 months, how often have you seen bullying ON SCHOOL PROPERTY and done nothing to stop it?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

38. During the past 30 days, on how many days did you NOT go to school because you felt you would be unsafe at school or on the way to or from school?

- ☐ 0 days ☐ 4 or 5 days
☐ 1 day ☐ 6 or more days
☐ 2 or 3 days

39. During the past 30 days, on how many days did you carry a weapon such as a gun, knife, or club ON SCHOOL PROPERTY?

- ☐ 0 days ☐ 4 or 5 days
☐ 1 day ☐ 6 or more days
☐ 2 or 3 days

40. What are the chances you would be seen as cool if you:

	No or very little chance	Little chance	Some chance	Pretty good chance	Very good chance
a. smoked cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. worked hard at school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. began drinking alcoholic beverages regularly, that is, at least once or twice a month?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. defended someone who was being verbally abused at school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. smoked marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. carried a handgun?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. regularly volunteered to do community service?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. were a member of a gang?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

PLEASE DO NOT WRITE IN THIS AREA

47. Think of your four best friends. In the past year (12 months), how many of your best friends have:

	0	1	2	3	4+
a. participated in clubs, organizations or activities at school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. smoked cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. tried beer, wine or hard liquor (for example, vodka, whiskey, or gin) when their parents didn't know about it?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. made a commitment to stay drug-free?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. used marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. tried to do well in school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. used LSD, cocaine, amphetamines, or other illegal drugs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
h. been suspended from school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
i. liked school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
j. carried a handgun?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
k. sold illegal drugs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
l. stolen or tried to steal a motor vehicle such as a car or motorcycle?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
m. been arrested?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
n. dropped out of school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
o. been members of a gang?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
p. been in a physical fight?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

48. I ignore rules that get in my way.

☐ Very False ☐ Somewhat True
☐ Somewhat False ☐ Very True

49. I do the opposite of what people tell me, just to get them mad.

☐ Very False ☐ Somewhat True
☐ Somewhat False ☐ Very True

50. I like to see how much I can get away with.

☐ Very False ☐ Somewhat True
☐ Somewhat False ☐ Very True

51. I think sometimes it's okay to cheat at school.

☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

52. It is all right to beat up people if they start the fight.

☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

53. I think it is okay to take something without asking if you can get away with it.

☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

54. During the past 30 days, how many times did you RIDE in a car or other vehicle driven by someone who had been drinking alcohol?

☐ 0 times ☐ 2 or 3 times ☐ 6 or more times
☐ 1 time ☐ 4 or 5 times

55. During the past 30 days, how many times did you DRIVE a car or other vehicle when you had been drinking alcohol?

☐ 0 times ☐ 2 or 3 times ☐ 6 or more times
☐ 1 time ☐ 4 or 5 times

56. During the past 30 days, how many times did you DRIVE a car or other vehicle when you had been taking prescription drugs (e.g., OxyContin, Vicodin, Valium, Xanax, Ritalin, Adderal, sleeping pills) that were not prescribed to you by a doctor or that you took only for the experience or feeling they cause?

☐ 0 times ☐ 2 or 3 times ☐ 6 or more times
☐ 1 time ☐ 4 or 5 times

57. During the past 30 days, how many times did you DRIVE a car or other vehicle when you had been using marijuana?

☐ 0 times ☐ 2 or 3 times ☐ 6 or more times
☐ 1 time ☐ 4 or 5 times

58. Think back over the LAST TWO WEEKS. How many times have you had five or more alcoholic drinks in a row?

☐ None ☐ Twice ☐ 6-9 times
☐ Once ☐ 3-5 times ☐ 10 or more times

59. Have you ever smoked cigarettes?

☐ Never ☐ Regularly in the past
☐ Once or twice ☐ Regularly now
☐ Once in a while but not regularly

60. During the past 30 days, on how many days did you smoke cigarettes?

☐ 0 days ☐ 6 to 9 days ☐ All 30 days
☐ 1 or 2 days ☐ 10 to 19 days
☐ 3 to 5 days ☐ 20 to 29 days

61. Have you ever used electronic cigarettes (e-cigarettes)?

☐ Never ☐ Regularly in the past
☐ Once or twice ☐ Regularly now
☐ Once in a while but not regularly

62. During the past 30 days, on how many days did you use electronic cigarettes (e-cigarettes)?

☐ 0 days ☐ 6 to 9 days ☐ All 30 days
☐ 1 or 2 days ☐ 10 to 19 days
☐ 3 to 5 days ☐ 20 to 29 days

63. How frequently have you used smokeless tobacco during the past 30 days?

☐ 0 days ☐ 6 to 9 days ☐ All 30 days
☐ 1 or 2 days ☐ 10 to 19 days
☐ 3 to 5 days ☐ 20 to 29 days

64. In the last 30 days, about how many times were you offered:

	Never	Once	2-3 times	4-6 times	7-10 times	More than 10 times
a. alcohol?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. Rx drugs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. other drugs?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

65. During the past 12 months, how many times have you talked with your parents about strategies to avoid or resist people or places where you might be offered alcohol, prescription drugs, or other drugs?

☐ 0 times ☐ 2 or 3 times ☐ 6 or more times
☐ 1 time ☐ 4 or 5 times

On how many occasions (if any) have you:

OCCASIONS:

	0	1-2	3-5	6-9	10-19	20-39	40+
66. had alcoholic beverages (beer, wine or hard liquor) to drink in your lifetime -- more than just a few sips?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
67. had beer, wine or hard liquor to drink during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
68. used marijuana in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
69. used marijuana during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
70. used LSD or other hallucinogens in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
71. used LSD or other hallucinogens during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
72. used cocaine or crack in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
73. used cocaine or crack during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
74. sniffed glue, breathed the contents of an aerosol spray can, or inhaled other gases or sprays, in order to get high in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
75. sniffed glue, breathed the contents of an aerosol spray can, or inhaled other gases or sprays, in order to get high during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
76. used phenoxydine (pox, px, breeze) in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
77. used phenoxydine (pox, px, breeze) during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
78. used methamphetamines (meth, crystal meth) in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
79. used methamphetamines (meth, crystal meth) in the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
80. used heroin in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
81. used heroin during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
82. used Ecstasy ('X', 'E', MDMA, or 'Molly') in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
83. used Ecstasy ('X', 'E', MDMA, or 'Molly') in the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
84. used steroids or anabolic steroids (such as Anadrol, Oxandrin, Durabolin, Equipoise or Depotesterone) in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
85. used steroids or anabolic steroids (such as Anadrol, Oxandrin, Durabolin, Equipoise or Depotesterone) in the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
86. used prescription pain relievers (such as Vicodin, OxyContin, Percocet, or Codeine) without a doctor telling you to take them in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
87. used prescription pain relievers (such as Vicodin, OxyContin, Percocet, or Codeine) without a doctor telling you to take them during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
88. used prescription stimulants (such as Ritalin, Adderal, or Dexedrine) without a doctor telling you to take them in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
89. used prescription stimulants (such as Ritalin, Adderal, or Dexedrine) without a doctor telling you to take them during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
90. used prescription sedatives (tranquilizers, such as Valium or Xanax, barbiturates, or sleeping pills) without a doctor telling you to take them in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
91. used prescription sedatives (tranquilizers, such as Valium or Xanax, barbiturates, or sleeping pills) without a doctor telling you to take them during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
92. used over the counter drugs (such as cough syrup, cold medicine, or diet pills) for the purposes of getting high in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
93. used over the counter drugs (such as cough syrup, cold medicine, or diet pills) for the purposes of getting high during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
94. used synthetic drugs (such as Bath Salts like Ivory Wave or White Lightning or herbal incense products like K2, Spice, or Gold) in your lifetime ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
95. used synthetic drugs (such as Bath Salts like Ivory Wave or White Lightning or herbal incense products like K2, Spice, or Gold) during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
96. drank beer, wine or hard liquor at the same time you used prescription drugs (e.g., OxyContin, Vicodin, Valium, Xanax, Ritalin, Adderal, sleeping pills) during the past 30 days ?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

97. If during the past 30 days you used marijuana, how did you get it? (Mark all that apply.)

- ☐ I did not use marijuana during the past 30 days
☐ I got it from someone with a Medical Marijuana Card
☐ Friends ☐ Parties ☐ School
☐ Family/Relatives ☐ Home ☐ Other

98. In the last 30 days, how often have you avoided people or places because you might be offered alcohol, cigarettes, marijuana or other drugs including prescription drugs?

- ☐ None ☐ 2-3 times ☐ 7-10 times
☐ Once ☐ 4-6 times ☐ More than 10 times

99. In the last 30 days, how often did you respond in the following ways when alcohol, cigarettes, marijuana or other drugs including prescription drugs were offered to you? (Fill in an answer for each way of responding)

	I never got offers	Four or more times	Three times	Twice	Once	Never
a. say "No" without giving a reason why.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. give an explanation or excuse to turn down the offer.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. decide to leave the situation without accepting the offer.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. use some other way to not accept the alcohol or drugs.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

100. How much do you think people risk harming themselves (physically or in other ways) if they:

	Great risk	Moderate risk	Slight risk	No risk
a. smoke one or more packs of cigarettes per day?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. try marijuana once or twice?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. smoke marijuana once or twice a week?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. have five or more drinks of an alcoholic beverage in a row once or twice a week?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. use prescription drugs without a doctor telling them to take them?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

101. Compared to using illegal drugs (e.g., cocaine, meth, heroin), how harmful do you think it is for people to take prescription drugs (e.g., OxyContin, Vicodin, Valium, Xanax, Ritalin, Adderal, sleeping pills) without a doctor telling them to take them?

- ☐ A lot less harmful ☐ No difference ☐ A lot more harmful
☐ Less harmful ☐ More harmful

102. If during the past 30 days you drank alcohol, how did you get it? (Mark all that apply.)

- ☐ I did not drink alcohol in the past 30 days
- ☐ I bought it in a store such as a liquor store, convenience store, supermarket, discount store, or gas station
- ☐ I bought it at a restaurant, bar, or club
- ☐ I bought it at a public event such as a concert or sporting event
- ☐ I gave someone else money to buy it for me
- ☐ My parent or guardian gave it to me
- ☐ Another family member who is 21 or older gave it to me
- ☐ Someone not related to me who is 21 or older gave it to me
- ☐ Someone under the age of 21 gave it to me
- ☐ I got it at a party
- ☐ I took it from home
- ☐ I took it from a store or someone else's home
- ☐ I got it some other way

103. If, during the past 30 days you used prescription drugs in order to get high, not for a medical reason, how did you get them? (Mark all that apply.)

- ☐ I've never used prescription drugs to get high
☐ Friends
☐ Family/Relatives
☐ Parties
☐ Home (e.g., Medicine Cabinet)
 ☐ Doctor/Pharmacy
☐ School
☐ Other
☐ Over the Internet
☐ Outside the United States (e.g., Mexico, Canada)

104. If you used alcohol, tobacco, or other drugs in the past 30 days, please tell us about some of your reasons for using (Mark all that apply):

- ☐ To fit in with my friends
- ☐ To try something new or exciting
- ☐ To get back at my parents or to get my parent's attention
- ☐ To help me lose weight
- ☐ To keep from feeling sad or down
- ☐ I was bored and needed something to do
- ☐ To get a high or to have a good feeling
- ☐ To help me feel normal
- ☐ To help me stay focused or think better
- ☐ To have fun
- ☐ To be like an actor or musician/band that I admire
- ☐ To feel more grown up or prove that I am grown up
- ☐ I needed it, craved it, or am addicted
- ☐ To deal with the stress in my life (Please mark all areas of stress that were related to your substance use below)
 - ☐ Parents/family
 - ☐ Peers/Friends (e.g., fighting with friends, getting bullied, dealing with rumors, etc.)
 - ☐ School
 - ☐ Community
- ☐ Other

105. If you did not use alcohol, tobacco, or other drugs in the past 30 days, please tell us about some of the reasons for not using (Mark all that apply):

- ☐ I'm not interested in using drugs
- ☐ It can harm my body
- ☐ My parents would be disappointed in me
- ☐ My parents would take away my privileges if they found out
- ☐ My teachers/mentors/other adults in my life would be disappointed in me
- ☐ I might get kicked out of school or extracurricular activities (e.g., sports, cheerleading, drama club/plays)
- ☐ My friends would stop talking to me or hanging out with me
- ☐ I would get a bad reputation with peers
- ☐ I wanted to, but I couldn't get it or wasn't offered it
- ☐ It's illegal – I could get arrested
- ☐ I've tried them before and I don't like them
- ☐ It's morally wrong
- ☐ It's against my religious or spiritual beliefs

These questions ask about the neighborhood and community where you live.

106. About how many adults (over 21) have you known personally who in the past year have:

[illegible]

a. used marijuana, crack, cocaine, or other drugs?

b. sold or dealt drugs?

c. done other things that could get them in trouble with the police, like stealing, selling stolen goods, mugging or assaulting others, etc.?

d. gotten drunk or high?

107. If you wanted to get some cigarettes, how easy would it be for you to get some?

108. If you wanted to get some beer, wine or hard liquor (for example, vodka, whiskey, or gin), how easy would it be for you to get some?

109. If you wanted to get some marijuana, how easy would it be for you to get some?

110. If you wanted to get a drug like cocaine, LSD, or amphetamines, how easy would it be for you to get some?

111. If you wanted to get a handgun, how easy would it be for you to get one?

112. If a kid smoked marijuana in your neighborhood, he or she would be caught by the police.

- ☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

113. If a kid drank some beer, wine or hard liquor (for example, vodka, whiskey, or gin) in your neighborhood, he or she would be caught by the police.

- ☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

114. If a kid carried a handgun in your neighborhood, he or she would be caught by the police.

- ☐ Strongly disagree ☐ Agree
☐ Disagree ☐ Strongly agree

115. Have you ever belonged to a gang?

- ☐ No
☐ No, but would like to
☐ Yes, in the past

116. If you have ever belonged to a gang, what was the one major reason you joined?

- ☐ Protection/safety
- ☐ Friendship
- ☐ Parent(s) are in a gang
- ☐ Sibling(s) are in a gang
- ☐ Make money
- ☐ Felt pressured
- ☐ To get respect
- ☐ Other

117. How wrong would most adults (over 21) in your neighborhood think it is for kids your age:

	Not wrong at all	A little bit wrong	Wrong	Very wrong
a. to use marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. to drink alcohol?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. to smoke cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

118. How wrong do your friends feel it would be for you to:

- a. have one or two drinks of an alcoholic beverage nearly every day?
- b. smoke tobacco?
- c. smoke marijuana?
- d. use prescription drugs not prescribed

119. During the past 12 months, do you recall hearing, reading, or watching an advertisement about the prevention of substance use?

☐ No ☐ Yes

	Strongly disagree	Disagree	Agree	Strongly agree
120. If I had to move, I would miss the neighborhood I now live in.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
121. My neighbors notice when I am doing a good job and let me know about it.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
122. I like my neighborhood.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
123. There are lots of adults in my neighborhood I could talk to about something important.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
124. I'd like to get out of my neighborhood.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
125. There are people in my neighborhood who are proud of me when I do something well.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
126. There are people in my neighborhood who encourage me to do my best.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
127. I feel safe in my neighborhood.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

128. During a typical week, how many days do all or most of your family eat at least one meal together?

Number of days: ☐ 0 ☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 ☐ 6 ☐ 7

129. During the past 12 months, have you talked with at least one of your parents about the dangers of tobacco, alcohol, prescription drugs, or illegal drugs? By parents, we mean your biological parents, adoptive parents, stepparents, or adult guardians – whether or not they live with you. (Mark all that apply.)

- ☐ No, I did not talk with my parents about the dangers of tobacco, alcohol, prescription drugs, or illegal drugs.
- ☐ Yes, I talked with my parents about the dangers of tobacco use.
- ☐ Yes, I talked with my parents about the dangers of alcohol use.
- ☐ Yes, I talked with my parents about the dangers of prescription drug use.
- ☐ Yes, I talked with my parents about the dangers of marijuana use.
- ☐ Yes, I talked with my parents about the dangers of illegal drug use.

130. Have any of your brothers or sisters ever:

	I don't have any brothers or sisters	Yes	No
a. drunk beer, wine or hard liquor (for example, vodka, whiskey or gin)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. smoked marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. smoked cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. taken a handgun to school?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

131. Has anyone in your family ever had severe alcohol or drug problems?

☐ No ☐ Yes

132. Have any of your relatives been in prison or jail any time during the past year (12 months)? (Mark all that apply.)

- ☐ No one has been in prison or jail
- ☐ Mother
- ☐ Father
- ☐ Step-parent
- ☐ Grandparent(s)
- ☐ Other adult(s)
- ☐ Sibling (i.e. brother, sister, step-sibling etc.)

133. How wrong do your parents feel it would be for YOU to:

	Very wrong	Wrong	A little bit wrong	Not wrong at all
a. have 1 to 2 drinks of beer, wine, or hard liquor (for example, vodka, whiskey or gin) nearly every day?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
b. smoke cigarettes?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
c. smoke marijuana?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
d. steal something worth more than \$5?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
e. draw graffiti, write things, or draw pictures on buildings or other property (without the owner's permission)?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
f. pick a fight with someone?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
g. use prescription drugs without a doctor telling you to take them?	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Strongly disagree	Disagree	Agree	Strongly agree
134. The rules in my family are clear.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
135. People in my family often insult or yell at each other.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
136. When I am not at home, one of my parents knows where I am and who I am with.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
137. We argue about the same things in my family over and over.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
138. If I drank some beer, wine or liquor (for example, vodka, whiskey, or gin) without my parents' permission, my parents would catch me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
139. My family has clear rules about alcohol and drug use.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
140. If I carried a handgun without my parents' permission, my parents would catch me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
141. If I skipped school, my parents would catch me.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
142. My parents ask me what I think before most family decisions affecting me are made.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
143. I feel very close to my mother.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
144. I feel very close to my father.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
145. I share my thoughts and feelings with my mother.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
146. I share my thoughts and feelings with my father.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
147. I enjoy spending time with my mother.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
148. I enjoy spending time with my father.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
149. If I had a personal problem, I could ask my mom or dad for help.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

	Strongly disagree	Disagree	Agree	Strongly agree
150. My parents give me lots of chances to do fun things with them.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
151. My parents ask if I've gotten my homework done.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
152. People in my family have serious arguments.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
153. My parents would know if I did not come home on time.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
154. It is important to be honest with your parents, even if they become upset or you get punished.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

155. My parents notice when I am doing a good job and let me know about it.

- ☐ Never or Almost Never
- ☐ Sometimes
- ☐ Often
- ☐ All the Time

C: Risk & Protective Factor (RPF) Scale Definitions

In this appendix we detail the items used to construct the risk and protective factor (RPF) scales presented in Section 5.1 the report. Many of the items used in the scales were “reverse coded” to ensure that high values correlated with “risk” or “protection” accordingly.

1. COMMUNITY: Laws and Norms Favorable to Drug Use

- (a) How wrong would most adults (over 21) in your neighborhood think it is for kids your age
 - i. to use marijuana?
 - ii. to drink alcohol?
 - iii. to smoke cigarettes?
- (b) If a kid drank some beer, wine, or hard liquor (for example, vodka, whiskey, or gin) in your neighborhood would he or she be caught by the police?
- (c) If a kid smoked marijuana in your neighborhood would he or she be caught by the police?
- (d) If a kid carried a handgun in your neighborhood would he or she be caught by the police?

2. COMMUNITY: Low neighborhood Attachment

- (a) I'd like to get out of my neighborhood.
- (b) I like my neighborhood.
- (c) If I had to move, I would miss the neighborhood I now live in.

3. COMMUNITY: Perceived Availability of Drugs

- (a) If you wanted to get some beer, wine, or hard liquor (for example, vodka, whiskey, or gin), how easy would it be for you to get some?
- (b) If you wanted to get some cigarettes, how easy would it be for you to get some?
- (c) If you wanted to get some marijuana, how easy would it be for you to get some?
- (d) If you wanted to get a drug like cocaine, LSD, or amphetamines, how easy would it be for you to get some?

4. COMMUNITY: Perceived Availability of Handguns

- (a) If you wanted to get a handgun, how easy would it be for you to get one?

5. COMMUNITY: Rewards for Prosocial Involvement

- (a) My neighbors notice when I am doing a good job and let me know about it.
- (b) There are people in my neighborhood who encourage me to do my best.
- (c) There are people in my neighborhood who are proud of me when I do something well.

6. FAMILY: Family Conflict

- (a) People in my family often insult or yell at each other.

- (b) People in my family have serious arguments.
- (c) We argue about the same things in my family over and over.

7. FAMILY: Poor Family Management

- (a) My parents ask if I've gotten my homework done.
- (b) Would your parents know if you did not come home on time?
- (c) When I am not at home, one of my parents knows where I am and who I am with.
- (d) The rules in my family are clear.
- (e) My family has clear rules about alcohol and drug use.
- (f) If you drank some beer or wine or liquor (for example, vodka, whiskey, or gin) without your parents' permission, would you be caught by your parents?
- (g) If you skipped school would you be caught by your parents?
- (h) If you carried a handgun without your parents' permission, would you be caught by your parents?

8. FAMILY: Family History of Antisocial Behavior

- (a) Has anyone in your family ever had a severe alcohol or drug problem?
- (b) Have any of your brothers or sisters ever:
 - i. drunk beer, wine, or hard liquor (for example, vodka, whiskey, or gin)?
 - ii. smoked marijuana?
 - iii. smoked cigarettes?
 - iv. taken a handgun to school?
- (c) About how many adults (over 21) have you known personally who in the past year have used marijuana, crack, cocaine, or other drugs?

9. FAMILY: Parental Attitudes Favorable to Antisocial Behavior

- (a) How wrong do your parents feel it would be for you to...
 - i. steal anything worth more than \$5?
 - ii. draw graffiti, write things, or draw pictures on buildings or other property (without the owner's permission)?
 - iii. pick a fight with someone?

10. FAMILY: Parental Attitudes Favorable Toward Drug Use

- (a) How wrong do your parents feel it would be for you to...
 - i. Have 1 to 2 drinks of beer, wine, or hard liquor (for example, vodka, whiskey, or gin) nearly every day?
 - ii. smoke cigarettes?
 - iii. smoke marijuana?

11. FAMILY: Opportunities for Prosocial Involvement

- (a) My parents give me lots of chances to do fun things with them.
- (b) My parents ask me what I think before most family decisions affecting me are made.
- (c) If I had a personal problem, I could ask my mom or dad for help.

12. FAMILY: Rewards for Prosocial Involvement

- (a) My parents notice when I am doing a good job and let me know about it.
- (b) How often do your parents tell you they're proud of you for something you've done?
- (c) Do you enjoy spending time with your mother?
- (d) Do you enjoy spending time with your father?

13. FAMILY: Attachment

- (a) Do you feel very close to your mother?
- (b) Do you share your thoughts and feeling with your mother?
- (c) Do you feel very close to your father?
- (d) Do you share your thoughts and feeling with your father?

14. PEER-INDIVIDUALS: Favorable Attitudes Toward Antisocial Behavior

- (a) How wrong it is to
 - i. take a handgun to school?
 - ii. steal anything worth more than \$5?
 - iii. pick a fight with someone?
 - iv. attack someone with the idea of seriously hurting them?
 - v. stay away from school all day when their parents think they are at school?

15. PEER-INDIVIDUALS: Interaction with Antisocial Peers

- (a) Think of your four best friends. In the past year (12 months), how many of your best friends have
 - i. been suspended from school?
 - ii. carried a handgun?
 - iii. sold illegal drugs?
 - iv. stolen or tried to steal a motor vehicle such as a car or motorcycle?
 - v. been arrested?
 - vi. dropped out of school?

16. PEER-INDIVIDUALS: Rewards for Antisocial Involvement

- (a) What are the chances you would be seen as cool if you
 - i. smoked cigarettes?

- ii. began drinking alcoholic beverages regularly, that is, at least once or twice a month?
- iii. smoked marijuana?
- iv. carried a handgun?

17. PEER-INDIVIDUALS: Favorable Attitudes Toward Drug Use

- (a) How wrong do your friends feel it would be for you to:
 - i. Have one or two drinks of beer, wine or hard liquor nearly every day?
 - ii. smoke cigarettes?
 - iii. smoke marijuana?
 - iv. use LSD, cocaine, amphetamines or another illegal drug?

18. PEER-INDIVIDUALS: Friends Use of Drugs

- (a) Think of your four best friends. In the past year (12 months), how many of your best friends have
 - i. smoked cigarettes?
 - ii. tried beer, wine or hard liquor (for example, vodka, whiskey or gin) when their parents didn't know about it?
 - iii. used marijuana?
 - iv. used LSD, cocaine, amphetamines, or other illegal drugs?

19. PEER-INDIVIDUALS: Perceived Risks of Drug Use

- (a) How much do you think people risk harming themselves (physically or in other ways) if they
 - i. smoke one or more packs of cigarettes per day?
 - ii. try marijuana once or twice?
 - iii. smoke marijuana once or twice a week?
 - iv. take one or two drinks of an alcoholic beverage (beer, wine, liquor) nearly every day?

20. PEER-INDIVIDUALS: Early Initiation of Drug Use

- (a) How old were you when first
 - i. smoked marijuana?
 - ii. smoked a cigarette, even just a puff?
 - iii. had more than a sip or two of beer, wine or hard liquor (for example, vodka, whiskey, or gin)?
 - iv. began drinking alcoholic beverages regularly, that is, at least once or twice a month?

21. PEER-INDIVIDUALS: Gang Involvement

- (a) In the past year (12 months), how many of your best friends have been members of a gang?
- (b) Have you ever belonged to a gang?
- (c) How old were you when you first belonged to a gang?

22. PEER-INDIVIDUALS: Rebelliousness

- (a) I do the opposite of what people tell me, just to get them mad.
- (b) I ignore the rules that get in my way.
- (c) I like to see how much I can get away with.

23. PEER-INDIVIDUALS: Prosocial Involvement

- (a) How many times in the past year (12 months) have you
 - i. participated in clubs, organizations and activities at school?
 - ii. volunteered to do community service?

24. PEER-INDIVIDUALS: Rewards for Prosocial Involvement

- (a) What are the chances you would be seen as cool if you:
 - i. worked hard in school?
 - ii. defended someone who was being verbally abused at school?
 - iii. regularly volunteered to do community service?

25. PEER-INDIVIDUALS: Interaction with Prosocial Peers

- (a) Think of your four best friends. In the past year (12 months), how many of your best friends have
 - i. participated in clubs, organizations and activities at school?
 - ii. made the commitment to staying drug-free?
 - iii. tried to do well in school?
 - iv. liked school?

26. PEER-INDIVIDUALS: Belief in Moral Order

- (a) I think it is okay to take something without asking if you can get away with it.
- (b) I think sometimes it's okay to cheat at school.
- (c) It is all right to beat up people if they start the fight.
- (d) It is important to be honest with your parents, even if they become upset or you get punished.

27. SCHOOL: Academic Failure

- (a) Putting them all together, what were your grades like last year?

28. SCHOOL: Low Commitment to School

- (a) How often do you feel that the school work you are assigned is meaningful and important?
- (b) How interesting are most of your courses to you?
- (c) How important do you think the things you are learning in school are going to be for your later life?

- (d) Now, thinking back over the past year in school, how often did you
 - i. enjoy being in school?
 - ii. hate being in school?
 - iii. try to do your best work in school?
- (e) During the past 30 days how many whole days of school have you missed because you skipped or “cut?”

29. SCHOOL: Opportunities for Prosocial Involvement

- (a) In my school, students have lots of chances to help decide things like class activities and rules.
- (b) There are lots of chances for students in my school to talk with a teacher one-on-one.
- (c) Teachers ask me to work on special classroom projects.
- (d) There are lots of chances for students in my school to get involved in sports, clubs, and other school activities outside of class.
- (e) I have lots of chances to be part of class discussions or activities.

30. SCHOOL: Rewards for Prosocial Involvement

- (a) My teachers notice when I am doing a good job and let me know about it.
- (b) The school lets my parents know when I have done something well.
- (c) I feel safe at my school.
- (d) My teachers praise me when I work hard in school.

D: Wording Changes in 2016 Questionnaire

The following pages list all changes in questionnaire items, from the first administration of the AYS in 2004, until the current, 2016 version. Each row lists the exact wording for each question for each year the survey was administered. The cells are sorted on the 2016 wording. A blank cell indicates that there was no version of a particular question in a particular year.

2004	2006	2008	2010	2012	2014	2016
"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (a) used marijuana, crack, cocaine, or other drugs?"
"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"	"About how many adults (over 21) have you known personally who in the past year have: (b) sold or dealt drugs?"
"About how many adults (over 21) have you known personally who in the past year have: (c) done other things that could get them in trouble with the police, like stealing, selling stolen goods, mugging or assaulting others, etc.?"	"About how many adults (over 21) have you known personally who in the past year have: (c) done other things that could get them in trouble with the police, like stealing, selling stolen goods, mugging or assaulting others, etc.?"	"About how many adults (over 21) have you known personally who in the past year have: (c) done other things that could get them in trouble with the police, like stealing, selling stolen goods, mugging or assaulting others, etc.?" 						During the past 12 months, have you talked with at least one of your parents about the dangers of tobacco, alcohol, prescription drugs, or illegal drugs? By parents, we mean your biological parents, adoptive parents, stepparents, or adult guardians--whether or not they live with you. (Mark all that apply) Yes, I talked with my parents about the dangers of marijuana use.
